Please pray for healthcare hospital workers during your prayer service tomorrow night. Especially the leaders....we need the wisdom, knowledge and strength to lead through this pandemic. Resources are tight and are quickly dwindling, and we are already exhausted. Thank you!

All impacted by Corona and facing depression and fear and financial woes. My son in rehab. What's next? My Granddaughter and fiancé have lost income from closing and wedding postponed. Salvation for those who don't know our savior.

I'm truly trying to give my fears to God. As long as the children are not in school I did not receive a paycheck because I'm a childcare provider. I've considered applying at a local grocery store however, due to my medical conditions they place me at a higher risk for contracting the virus. To say I'm scared about what my circumstances is an understatement. God has a plan this I know, but I'm very concerned. Thank you for your prayers.

[Friend] is on hospice, 55 years old, liver and kidneys shutting down. Requesting prayers for a safe exit home to the Lord! My dad is having surgery Monday to remove a cancerous tumor on his kidney. Following the surgery he will get 2 bouts of chemo. Appreciate all the help!

Let's pray for the United States of America and for our World for a fast end to this horrible COVID-19 situation we are in. May the positive cases stop and people heal. Comfort us Lord and bring us peace and hope during these stressful times. Also for myself for pain and a lump in my upper gum. I pray that my appointment with an oral surgeon will not be cancelled due to the coronavirus and that there will not be anything serious wrong with me.

My friend [Friend] who lost her 24 year old son to an overdose last week. He had been clean for 2 years....

I actually have three prayer requests. The first one is for my aunt's brother, who was diagnosed with pancreatic cancer and told that he only has 2 years to live. Could you pray for his healing? The second is both praise and a prayer, my uncle's mother also has cancer. She's been undergoing chemo, and she's been in my prayers. Recently we found out that her tumor has shrunk enough to be operable. However, this surgery will put her at even more risk to the coronavirus than she was already. Could you pray that God continues to heal her and that she had a safe surgery and recovery? The third prayer request is more general. I know several people who, whether due to medical conditions or age, are more at risk than others with regard to the coronavirus. Could you pray for their protection?

My sister, she is struggling financially and health wise. She does not have the coronavirus but is in poor health. She needs extra prayers during this troublesome time.

During this shut down, prayer for those whose homes are not safe places... whether because of abuse or poor home conditions, and for those who are without homes. Jesus, send your ministering angels to protect and to reveal yourself in supernatural ways.

Please pray for our healthcare providers during this uncertain time. That the protective equipment we need will be available. I am a nurse who needs to go care for patients but who fears bringing home this virus to my family.

Sister's health, brother in law's pneumonia and children and grandchildren of both for protection

Please pray that God will continue to give me ideas on how to reach out to folks from my home for the Gospel: Neighbors outdoors, business phone calls, Sending tracts to the homeless through various venues, texting prayers, sharing Scripture, songs, sharing with others of what they have need. Also, this head cold still hangs on with sneezing and blowing and sometimes chills, but no CV symptoms, praise God!! It's been 1 1/2 weeks.
