

Prayer Requests of The Village (June 14 – July 9, 2020)

7/9/2020

Tuesday, July 14th, I will be having a full knee replacement surgery. Will be inpatient for 1 day then home for recovery. I can't drive for a month (and sitting still is not my strong suit). More concerned for the pain after the surgery as I prefer not to have to take narcotics but for this I know I will need to for at least a few days. Thank you in advance for prayers.

Praise for great niece - it wasn't her brain, but a UTI... better than needing brain surgery

Please pray for my father. He has an infected knee replacement (again) and will more than likely have to travel to NYC for surgery. Request for successful surgery, clearing of the infection, that I would be able to be with him and see him while in hospital and to stay free of covid!

Friend who is undergoing testing to determine if he has Parkinson's.

For my dad who is battling early stages of dementia.

After sinus surgery on 6/15, I started experiencing headaches every day. They did a CT-Scan and thankfully the results of the surgery were good. But now I need to see a neurologist for the headaches. I need prayer for them to go away. I also need healing for my neck as I must've pinched a nerve in my right side.

That my parents can solve their problems together. They have been having arguments about divorce. I don't know what plans God has for them or for our family. I just want everyone to be happy. I pray that this world can change, there are so many crazy things happening in today's world and we just need more prayer. I know I haven't been all in at church, I tithe but I haven't prayed in a while.

Please pray for my daughter. She resigned from her job today at Amazon. She thought she would have been fired so she resigned so she could get another job quickly. She told [Friend] and he didn't get back to her. She lives on her own and has a new car. Thank you for praying.

Hi, please pray for my cousin. Her breast cancer is back. Please pray for her husband, he has heart issues. Please pray for their son, he is going through a divorce and very suicidally depressed. Please pray for their other son, he is mentally ill, cannot live on his own, and is not doing well on his medication. Thank you so much. God Bless you!

Please pray for my best friend. She has a lump in her throat and I am worried as she is a 30-year smoker. Thank you so much. God Bless you!

About 2 years ago, my company had a wide layoff. One of the women affected, is still out of work and has been unable to find temp jobs during the pandemic. Could you pray for her?

I am stressed and frustrated. I had sinus surgery on 6/15 and I am so thankful everything went well, but since then I have had headache after headache and I have tinnitus in my right ear so taking Motrin is not the best idea but I've had to take a high dose to try and help. Every day since then right on the hour. I wake up with the headaches too. Also, I haven't taken my kids out for errands or anything of the sort. My two year old, was diagnosed with the mouth part of Hand, Foot, and Mouth disease. I am tired and upset. She has had fevers since 6/25. Thankfully, since 12 am she hasn't had one. Just praying for a speedy recovery for all of us.

Unspoken prayer

We are now 30 wks. pregnant. Just diagnosed with gestational diabetes... also, we are coming up on the 2nd anniversary of our daughter's stillbirth (7/13). Pls pray we have peace through this season and for my health and the health and safe arrival of baby sister.

My coworker, who is battling stage 4 pancreatic cancer. My son, who has been experiencing interrupted sleep each and every day. My other son, who's been developing some twitching habits. My daughters, to put God first in all they do. My marriage, to continue growing stronger each and every day.

[Friend] and his heart healing after surgery. [Friend] for health issues. Prayers for the anxiety caused by this virus. Praises for my son's sobriety.

My brother, was having stomach pains. He went to the ER, and he found out that he might need to have his appendix out. Could you pray for his health and safety?

1. For my parents, who lost their Medicaid because my dad who is going to be 63 started to collect unemployment. I pray that we can find a good and inexpensive insurance option. 2. For my mom, she has had fibromyalgia for years and as she gets older it's getting worse in the sense that all she does is be in bed and sleep. Nothing attracts her or gives her energy. And she doesn't like anyone to tell her to try and exercise. 3. I have surgery tomorrow for my sinuses. It's my first surgery ever and I'm not too eager for being put to sleep

and also since I'm feeling fine ever since I've been home, knowing that I'm going to feel sick is worrying me. 4.
For my dad, to stop smoking.

My co-worker, who is battling stage 4 pancreatic cancer. My mom, who is suffering of severe fibromyalgia pains. My family, my children, our jobs. My son, who is going through some tough temper tantrums and keeps waking up in the middle of the night! Keep us seeking God first in all that we do.

My husband, his job, has had some changes that are impacting us financially (negatively) and I'm asking for wisdom as he navigates these changes and to ask the Lord to provide either a new job or to provide better with the current job.

Pls pray for healing for a family that is in great turmoil & for the safety of one family member.
